PRENCH BOARDING AND DAY SCHOOL
FOR BOYS, BY HY. BENTALOF MICHARD,
19th street, between F and G, west side.—The peuliar features of this academy are:
1st. That it is the only male school in this section
of the country where French is taught practically,
and in which the intercourse between the teacher
and pupils is held in the French language.
2st. That mathematics—this paramount object of

and pupils is held in the French language.

96. That mathematics—this paramount object of moderil adjuctation—are tatight; not offly as a special branch, and on the plan established by the masterior of the French school, (principally Legendre, Bourdon, Lacroix, &c.,) but, moreover, instruction is conveyed through the medium of the French; demonstrations in geometry and solutions of problems being made in this language—an exercise which, by itself, might be sufficient to enable papils to speak it with ease and accuracy.

The English is by no means neglected. The course of English studies consists of English grammar, reading, (the classic authors,) weekly recitations of English poetry, (previously copied by the pupil,) and English composition.

The boarding department is under the care of Mr. Joseph Michard and his lady, in when a series of Mr.

Ma. and Mas. Michaho will teopies, on the first
Monday of September, their DAY SCHOOL, FOR
YOUNG LADIES, in which the studies will be
stried on according to the plan adopted for the last

Also attends as agent for nonalso attends as agent for nonalso collection replan procuring

A GENCY FOR CLAIMS AT WASHINGTON.—The undersigned offers his services as an agent for claims upon either of the departments or Congress.

Particular attention will be paid to the settlement of accounts of disbursing officers, who may find it inconvenient to attend personally, especially those of the navy. His experience and practical knowledge will afford many facilities.

Charges will be moderate, and regulated by the amount claimed and the extent of service required. Communications (post paid) will receive immediate attention.

GREATEST WONDER OF THE AGE.

PATENT GALVANIC RING, AND MAGNETIC FLUID.—These wonderful Rings, and the Galvanic Fluid, have created a great sensation throughout Europe, and are attracting crowds to see them, both in New York and Bostos. They cure with astonishing rapidity rheumatism, gout, tic-doloreux, fits, cramp, sick headache, indigestion, paralysis, stiff joints, general debility, deficiency of nervous energy, and all nervous disorders. They produce all the beneficial results of the ordinary galvanic battery, or electric and magnetic machines, without the injurious shocks which always accompany their application. The secret of preparing the Ring was discovered by Professor Harmance Christie, of London, in October last, and they have been recently introduced into this country by Dr. A. Christie, who warns the American public, from the beginning, to beware of spurious imitations. To guard against fraud, he will appoint but one agency in each of the cities of the United States.

For sale by the only agent in this city,

O. FISH & CO.,

Nos. 1 and 2, Brown's hotel.

CHESTERVIELD CO., Va.

Thompson M. BLOUNT, formerly of Powhatan county, Virginia, has not been heard from by his friends for about seven years. By the death of his father, there are funds in my hands to be used for his benefit; and I am anxious to learn whether he still lives. Any information concerning the said Thompson M. Blount, directed to me at the Coal Mine post office, Chesterfield county, Va., will be thankfully received.

ELIJAH BRUMMELL.

Editors of newspapers generally, and particularly at the South, will do an act of humanity by giving the above one or two insertions.

GENERAL AGENCY AND ATTOR-NEY'S OFFICE.

NEY'S OFFICE.

To THE PUBLIC.—The undersigned respectfully states that he has opened an office in this city, to which all persons having claims or business of any kind with Congress, or any other department or hranch of the government, may apply.

As any enumeration that equal now be made of the matters about which the aid of the office might be desired would be imperfect, none is attempted at this time. Suffice it to say, for the present, that the arrangements adopted contemplate the transaction of business of every description and variety, and to almost any extent.

Charges will be moderate. All communications, to ensure prompt attention, must be post-paid, and enclose a reasonable consideration for the time, &c., necessary in preparing the proper attswers respectively.

Publishers of newspapers who may insert the above, and send their paper to this agency, will not only receive its thanks, but be entitled to an equivalent in its aervices, whenever called upon.

OREGON AND CHINESE WHEAT.—Just received a few sacks of the above new and superior seed grain, from H. R. Smeltzer, esq., of Bloomfield farm. The Oregon is a red kernel wheat, and the Chinese a beautiful plump white kernel. These extraordinary varieties produced Mr. S. last season 45 to 66 bushels of wheat per acre, weighing 63 to 66 bushels of wheat per acre, weighing 63 to 66 bushels of wheat per acre, weighing 63 to 66 bis. per bushel.

"Onxeon and China white the hear of called Oregon, the other 'China.' It was taken from the Bloomfield estate, belonging to Henry R. Smeltzer, near Middletown, Frederick county, Maryland. The 'Gregon' wheat was found or discovered by a missionary travellifig through that territory, who brought it to this country in 1839. Mr. Smeltzer this year raised from four and a quarter acres, 913 bushels and 43 lbs., which is a fraction over 50 bushels to the acre. This wheat is very hardy, of a beautiful red color, with smooth chaff, heads from 5 to 6 inches long, and average from 90 to 130 grains to the head. It is believed it will yield at least 90 per cent. more to the acre than the ordinary wheat, from the fact that it has from 15 to 30 grains mitre to the head. The history of the China wheat is rather strigtists. A few heads were found in a box of China-ware Imported from the north of China; and the heads being so very large and competer, the discoverer was induced to plant them. Mr. 8. informs us that last year 47 bushels per acre. This is a beditifful white wheat, and has heads or ears about as long as the 'Gregon' wheat, and has heads or ears about as long as the 'Gregon' wheat, and has heads or ears about as long as the 'Gregon' wheat, and should the same number of grains to the head. The 'China' wheat is of the early kind, and, so far, has not been injured by smut, mildew, or fly."—Sun.

The above valuable seed grain is for sale at the agricultural store of J. F. CALLAN, Washington; fine for the called the product of the called the product of the called the produ

BALTINONE, Sept. 19, 1845. Sept. 13—tf

MEDICAL DEPARTMENT OF THE COLUMBIAN COLLEGE. THE annual course of lectures in this institute will commence, as usual, on the first Mon November, and continue until the first of Ma

n November, and continue until the first of M FACULT?! Harvey Lindsly, M. D., Professor of Pett and Practice of Medicine. Thomas Miller, M. D., Professor of Anato John M. Thomas, M. D., Professor of M

pathology and therapeutics.

W. R. Handy, M. D., professor of anatomy and physiology.

By faculty, (till chair is filled,) dental physiology and pathology.

Charm A. Harris, M. D., demonstrator of mechanical dentistry.

The faculty are gratified in being able to inform the community, that, in addition to the laboratory already attached to the college, arrangements have been made for opening a dental infirmary, which will go into operation the ensuing session, and be conducted on the most liberal principles.

It is designed to extend relief, gratuitously, to all those who are too poor to pay a dentist, by simply defraying the cost of the material used in repairing the teeth.

All operations on the mouth and face will also be performed without charge.

This infirmary, it will be perceived, is a purely charitable institution, extending the same relief to the dental apparatus of all the destituts poor, that medical infirmaries do to diseases of other parts of the body.

It will also add greatly to the practical facilities which the college already furnishes the student, by giving him not only a better opportunity of daily witnessing the various operations, but also of taking part himself, and thus acquiring that practical tact so essential to the skillful dentist.

Ticket of each professor, \$25; matriculation, \$5. Demonstrator's ticket, \$10; dissecting ticket, \$10.

Diploma, \$30.

W. R. HANDY, Dean.

RITTENHOUSE ACADEMY, Indiana avenue
RITTENHOUSE ACADEMY, Indiana avenue
near City Hall.—The duties of this institution
were resumed on Monday, September 1st. A lim
ited number of pupils can be received on early ap
plication—a few as boarders, over whom a strictly
parental discipline will be maintained.
